Rules for the FEI World Cup™ Jumping

12th edition, effective 1st May 2009.

Preamble

This booklet sets forth the detailed Rules of the FEI World Cup™ Jumping, which is to be read in conjunction with the pertinent Statutes, General Regulations, Rules for Jumping Events and Veterinary Regulations. It is acknowledged that every eventuality cannot be provided for in these Rules. In cases where there is not a rule to deal specifically with a particular situation, or if the narrowest interpretation of a relevant rule would result in a clear injustice, it is the duty of those responsible to make a decision based on common sense, fair play and in the overall best interest of the sport, thus reflecting as nearly as possible the intention of these Rules and of the General Regulations.

A series of indoor competitions is held between October and April in Western Europe, open to all competitors qualified according to a formula based on Rolex Rankings.

Article 654 – INVITATION SYSTEM**1. Automatically Qualified – Western Europe**

Art. 654**1.1. Invitation System – Western Europe**

In Western Europe, the following are invited to each Western European FEI World Cup™ event and where indicated have the automatic right to compete in the Rolex FEI World Cup™ competition:

1.1.1. Top Ten of the Rolex Rankings

If a rider from the top ten of the Rolex Rankings decides not to compete at an event, he may be replaced by a rider nominated by his NF. Such replacement must be from the top 45 of the Rolex Rankings. If the NF cannot replace the rider in question, he may be replaced by the organiser from the top 45 on the Rolex Rankings from a foreign country or from the home country from the top 100 on the Rolex Rankings. These riders are pre-qualified for the FEI World Cup™ competition. **= max 10**

Unused starting places in paragraph 1.1.1 go to paragraph 1.1.5 if the total number is 40 or less and to paragraph 2 if there are more than 40.

1.1.2. NFs hosting a FEI World Cup™ competition

Each NF of a country organising a FEI World Cup™ competition in Western Europe may send one rider to each FEI World Cup™ event in Western Europe. These riders are pre-qualified for the FEI World Cup™ competition.

Selection of competitors must first be made from the Rolex Rankings position 11 to 45 if the NF has a rider in this group wishing to take part at the event. Otherwise, competitors may be selected from any position on the Rolex Rankings. **= max 11**

Unused starting places in paragraph 1.1.2 go to paragraph 1.1.5 if the total number is 40 or less and to paragraph 2 if there are more than 40.

1.1.3. Western European countries - 3.5 Million inhabitants

Western European countries with at least 3.5 Million inhabitants, but not organising a FEI World Cup™ competition in Western Europe, may send one rider to each FEI World Cup™ event, provided that at least one rider from the country is in the Top 60 of the Rolex Rankings, or 2 in the Top 200. These riders are pre-qualified for the FEI World Cup™ competition.

Unused starting places from category 1.1.3 go to category 1.1.5. **= 04**

1.1.4. Three NFs of competitors with most Points

The three NFs with the most points obtained by having riders placed 11 to 60 in the Rolex Rankings may send a second rider to each event in Western Europe. The following scale of points applies:

- a rider placed 11 to 25 = 2 points
- a rider placed 26 to 60 = 1 point

In case of a tie the higher individual placing of the country's riders in the Rolex Rankings divides. Point 1.1.4 only applies to the NFs with six or less riders eligible to participate in accordance with paragraphs 1.1.1 and 1.1.2. This restriction does not apply to the home country.

The above riders are not automatically pre-qualified for the FEI World Cup™ competition. From the beginning of the second half of the season, competitors placed within the top 30 on the FEI World Cup™ standings are pre-qualified.

Unused starting places in paragraph 1.1.4 go to paragraph 1.1.5 if the total number is 40 or less and to paragraph 2 if there are more than 40. **= 03**

1.1.5. Five additional home competitors

Five additional riders from the home NF are invited to the home event, nominated by the NF. All of these riders are pre-qualified for the FEI World Cup™ competition. **= 05**

Sub-total = 33

Art. 654**1.1.6. Seven Wild Cards**

The Organising Committee has **7 Wild Cards** to invite additional riders. They only have the automatic right to compete in the FEI World Cup™ competition if there are 40 or less riders at the event.

= 07**Total 40****2. Invitation system with more than 40 competitors****2.1. More than forty competitors invited**

If an Organiser wishes to invite more than the above 40 riders to his event he has two options:

- Host a qualifying competition for the seven to ten remaining places among the 7 Wild Cards (Art. 654.1.1.6) and the riders not automatically pre-qualified for the FEI World Cup™ competition (Art. 654.1.1.4);
- Or
- Exclude the FEI World Cup™ competition to the riders invited above the number 40. Consequently, the 7 Wild Cards (Art. 654.1.1.6) are automatically pre-qualified for the FEI World Cup™ competition.

However, competitors obtain World Cup points for their country of citizenship, regardless of where they are domiciled in North America (e.g. Mexican citizens residing in East League; Canadian citizens from East League residing in West League USA or Mexico etc). Competitors may earn full points in either North American League. Should a competitor wish to obtain points in the North American League where he is not a resident, he must notify the FEI Headquarters and Sally Ike (sally.ike@usef.org, fax (908)234-9417 in writing prior to the first competition in which he participates.

ANNEX B

ROLEX RANKINGS CALCULATION FOR 2009 LISTS

Generals

The list for the Rolex Rankings takes into account the points obtained over a twelve month period beginning on 1 January and ending on 31 December.

The list for the Rolex Rankings is produced by the FEI Headquarters.

The list for the Rolex Rankings is updated weekly but is released on the first week of each month only. The updated version during the month is not published or distributed, except for specific purposes (FEI World Cup™ invitations, selection for Top Ten Final etc).

The list for the Rolex Rankings begins on 1 January each year with the carry over of the total number of points, which have been accumulated during the previous year until 31 December.

At the end of each month, the points earned during that month are added to the list. The points from the same month the previous year are dropped from the list.

Points obtained at Games and Championships are retained on the list depending on the frequency of the events. If the event is held every four years, 25% of the points obtained are dropped after one year, 50% after two years, 75% after three years and the remainder after four years. If the event is held every two years, 50% of the points obtained are dropped after one year and the remainder after two years.

Point System

Competitions are divided into groups depending on their level. *Refer to definition of Groups.*

For Individual competitions, riders obtain points related to their placing in the competitions. The scale of points differs from one group to another. *Refer to scales of points.*

For Team competitions, riders obtain points related to their results. If they obtain four penalty points or less in at least one of the rounds, they earn points. *Refer to Nations Cup.*

For Olympic Games, Pan-American Games, European Championship (Seniors), Rolex FEI World Cup™ Jumping Final **and Asian Games**, the first three placed riders obtain bonus points in addition to the points obtained during the competitions. *See "bonus".*

The 16 best placed competitors (plus the riders tying for the last place to count) will obtain points in all individual competitions counting for the ranking. Points won by riders who are tied are added up and divided equally among them. Two decimals are kept. The second decimal place will be rounded up from .005 and rounded down from .004.

Riders placed more than once in the first 16 obtain points for their best placing only.

Competitions excluded: Special competitions, **meaning show competitions or competitions for which participation is based on personal invitations or for which not all riders at the event have the chance to qualify (such as Top Ten, Masters, rotating horses [n/a to Rotating Individual Final FEI World Championship])**, Knock-out, Puissance, Six-bar, Relay, team competitions other than Nations Cup.

There will be no limit on the number of competitions per event which count for the list for the Rolex Rankings provided they meet the criteria of a group.

Number of results to count for the list for the Rolex Rankings and Olympic Games qualification

The number of results to count per rider per year for the list for the Rolex Rankings is limited to the best 50.

For the purpose of qualifying for the Olympic Games, the number of competitions to count will be limited to 30. Conditions for qualifying for the Olympic Games are laid down in the Rules for Equestrian Events at the Olympic Games.

Horse/Rider Combination Ranking List

In accordance with the above rules a ranking list for the Horse/Rider Combination is established each year. If one of the two elements forming the combination changes during the year, the points start again from scratch. This list begins for each combination with zero point on 1 January and finishes on 31 December (only the points of the current year are taken into account; there is no carry over of previous championships or Games points).

ANNEX C

THE FEI CODE OF CONDUCT

FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.

2. Horses and competitors must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.

3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.

4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.

5. *The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.*

A full copy of this Code can be obtained from the Fédération Equestre Internationale, Avenue Mon-Repos 24, CH-1000, Lausanne 5, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English & French. The Code is also available on the FEI's website: www.fei.org.
